

# Animate a Line Drawing

## Animate a Line Drawing in Pages

### Activity

Students can animate a line drawing that they have created in Pages to reflect the creation process. This can help others to understand how they have done the drawing and the process that went into it. It would also reflect the step by step process of how it was done, and feedback could be offered in a more targeted manner.

### Objectives

Students will be able to

- Draw from their observation and experience
- Generate ideas and explore different pathways that lead to solutions

### Extensions

Students can

- Add an audio recording to explain the animation and the thinking behind the drawing
- Compare how they have done the drawing compared to their friend, and understand the thinking process that differs

## Have a go

- 1 Open . Tap on +, then  and add a photo. You can choose to pick something that you have created previously.
- 2 Select the image and tap on . Tap on Arrange and slide it to Back so that you can draw over it.
- 3 Tap on +, then  and select Add Drawing. The toolbar  will pop up.
- 4 Tap on the tools to change the thickness of the lines and the opacity of colours. You can now draw over the image.
- 5 Once you are done, tap on the original image and tap on Delete. Select your tracing, tap . Select Drawing and Animate Drawing.
- 6 You can change the duration to slow it down or speed it up, and turn on loop so that it will replay by itself.
