

Create a Story Board for Art Piece

Use Stop Motion for Story Boarding

Activity

Students will have to consider about the creative process of their art piece. They will use Stop Motion as a tool to showcase the story board. It will begin from where they had the inspiration for the art piece, how they considered about the materials and colours of the art piece, the process of the creation and the final showcase.

Objectives

Students will be able to

- Distinguish the visual qualities in what they see
- Draw from their observation and experience
- Present their own ideas and consider others' ideas in artworks and through art making
- Share their artworks, intentions and art making processes with others

Extensions

Students can

- Work with a friend to create a story board on their art pieces
- Add an audio recording to the stop motion piece

Have a go

- 1 Open . Tap on +. You can take a picture by directly tapping on the red button.
- 2 You can also tap on  above the red button to set a timer so that the camera can snap the photo as you change the scene.
- 3 Tap on  to watch the video play so that you can make changes accordingly.
- 4 Long press on an image and drag it left or right to switch its position around.
- 5 Tap on  once done, and you will see your recently created stop motion movie.
- 6 You can select it, tap on  and select Export Movie, Save Video . You will then find the creation in your Photos app.
