

# Research with Quick Notes

## Collaborative Research using Quick Notes

### Activity

Students are given a task to research any given topic relating to a topic of interests as part of post exam project. They have to create a document collaboratively before working on the Keynote presentation.

### Objectives

Students are to decide on a topic of interest and split the research topics into parts assigned to each other to work separately but collate results on a single document

### Extensions

Students can begin to work on the Keynote presentation with allowed portions

## Have a go

- 1 Open Safari  and type in URL bar the topic of 'hybrid animals'  
Select a paragraph of text information about a hybrid of your choice and tap on it to prompt the menu, select 
- 2 The text will be copied to the Quick Note which will appear from the bottom right of your screen.  
Drag and drop a picture of your described hybrid.
- 3 Tap on the 'More Options' (circle with 3 dots) to share with your team mates so they can work on separate sources together.
- 4 Add a hashtag #hybrid in the QuickNote to enable quick identification through Spotlight search.
