Social Studies – Performance Task
Gathering Data

Activity

With the interview questions in mind, students are to gather the data and consolidate the finding into a poster/chart using Keynote (set the slide size to wide).

Data must include a photograph, when and where the photograph was taken, a description of the photograph and responses to the interview questions.
Objectives

• Students can gather data to provide them with information to address existing questions.
• Students can gather data through making field–based observations, conducting interviews as well as surveys with members of the community.
• Students work in a respectful manner with others in a group setting. (CCI)
• Students convey information and ideas clearly. (CCI)
Extensions

• Teacher can provide a Keynote template (e.g. set the slide size, and draw the timeline for the students), so that students focus just on content creation.
• Students can create audio recordings in Keynote to augment the interviews.

Have a go

1   Tap ⬜, create a new Keynote presentation. Choose the white theme, add a blank slide to your keynote presentation. Tap ⬛ , scroll down and tap Document Setup. Tap ⬛ Slide Size custom. Press done after complete the setting. Standard A1 size is 1684x2384 (Vertical) 2384x1684 (Horizontal)

2   To add text, line and shapes for explanation, tap ➕ on the top right hand corner, and under shapes ⬛ basic shapes to locate text.

3   To modify the text and shapes, tap to select first, then tap 🖌 to modify the style

4   Use Apple Pencil to tap on the screen in Keynote to activate the drawing mode to answer the questions or tap ➕ on the top right hand corner, and under 🖼 and tap drawing to activate drawing. Press Done on the top right corner to leave drawing mode.

5   Tap ⬛ export to images. Tap Export. Tap ⬇ to save image. Close Keynote and tap 🌈 to open your image in Photos.
